

Attend an Information Fair on

Completing Cleanup and Strengthening Our Nuclear Legacy

*The Department of Energy, Environmental Protection Agency and the
Idaho Department of Environmental Quality are holding an Information Fair on
new missions and cleanup at the Idaho National Engineering and Environmental Laboratory*

Exciting changes are taking place at the INEEL!

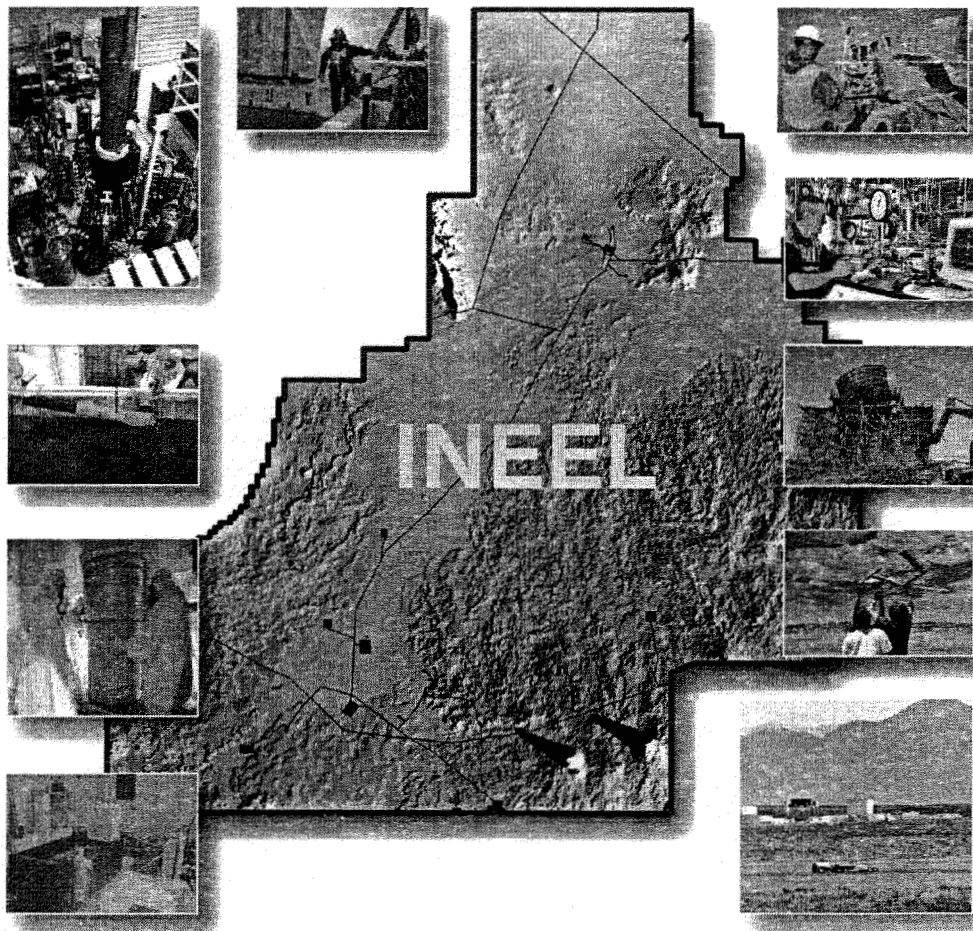

See Idaho's national laboratory under construction, as we work together with the people of Idaho to build the pre-eminent nuclear energy research and development lab in the nation. Also, learn how scientists and engineers are protecting the nation's security and infrastructure through their innovative technologies. If you have an interest in environmental cleanup, learn how the Idaho Completion Project will protect the Snake River Plain Aquifer by removing or stabilizing past contamination.

Please attend an Information Fair on May 17 from noon to 9 p.m. at the Bennion Student Union building (University Place) in Idaho Falls.

The Information Fair will be an opportunity for you to tell us what you think about the INEEL's nuclear and national security initiatives, environmental cleanup, the types of wastes managed at the Site, and what is being done to protect the Snake River Plain Aquifer and other resources.

Come meet INEEL staff responsible for doing the work; look at the many displays; experience the hands-on items; attend the public meetings; and provide your thoughts on what we're doing well and what needs

improving. Representatives from the Idaho Department of Environmental Quality, Environmental Protection Agency, and United States Geological Survey will also be participating in the Information Fair.

Meeting Topics

- Early cleanup actions – accelerated cleanup - 2:30 p.m.
- Future of cleanup at the INEEL - 4:30 p.m.
- Nuclear energy – **Research and Development Mission** - 6:30 p.m.
- Retrieval of stored and buried transuranic waste from the Radioactive Waste Management Complex - 7:30 p.m. (A court reporter will be present to record comments during an official comment session.)

Location

Bennion Student Union Building
1784 Science Center Drive
Idaho Falls

Further Information

Look for regular updates online at <http://cleanup.inel.gov>. For further information, contact the INEEL at (208) 526-4700.

Hope to see you there!
